Date: January 21, 2022
To: All Service and Parts Managers
From: Daikin Technical Services
Subject: **Rotary Compressors Require Hard Start Kit when Paired with Indoor TXV**

All outdoor equipment utilizing a rotary compressor when matched with a TXV equipped indoor coil are **REQUIRED** to have a hard start kit installed per the Installation Instructions. Shown below are the manufacturer approved hard start kits. The appropriate hard start kit can be found in the accessories section of the Spec Sheet of the outdoor equipment. Operating the unit without the proper Hard Start Kit can cause damage to or failure of the unit. Such damage or failure is not covered under the unit's warranty.

Hard Start Kit Part Numbers

Part Numbers
CSR-U-1
CSR-U-2
CSR-U-3

Notice Shown in IO's

If compressor type is unknown, please refer to one of the discovery options below.
